Day 30

Welcome

Your Enrollment Specialist is hard at work getting your enrollment portal and credentials setup. Expect to see an email from them in the next few days with instructions on how to get started with your clearinghouse enrollments.

Safe System Setup

While you enroll and await payer approvals, login to the software, checkout the Resource Center and get started with your learning.

Enroll

Follow the simple instructions to login to the clearinghouse portal and get started with your enrollments.

Data Preparation

Time to get started on your pre-migration system setup and preparing your ChiroTouch data for data migration.

Day 60

Learn & Practice

Once your enrollments are approved, you have prepared your ChiroTouch data for migration, completed your pre-migration system setup and conducted some learn and practice, you are ready to schedule your data migration appointment.

Migrate

On the day of your appointment, we will connect to your system and copy your data to your new ChiroTouch Advanced platform.

Day 75

Post-Migration Setup

Now that your data has been safely migrated, you can complete your post-migration system setup tasks and prepare for billing.

End-to-End Practice

At this point you have done lots of practice, fully prepared the new software, and are ready to start using it with your patients.

Attend Billing Training Session

As you practice and prepare for launch, join a billing training session to make sure you are fully prepared to start sending claims.
